KRISHNA CHEMICALS

INTRODUCTION :

Krishna Chemicals established in 2006 as Manufacturer of Paints & chemicals as now we are a leading Manufacturer & Exporter in the industry with the well-known brand name of "GOOD SHINE " in India, the fastest growing brand Paints & chemicals industries. From the formation, company is committed to provided high quality of wood coating & undercoats, NC Paint, PU Coating, Enamel Paints, Stain's and other chemicals products like Paints Remover, Retarders & Thinners according to the most demanding market in competitive price.

Family of Good Shine Products

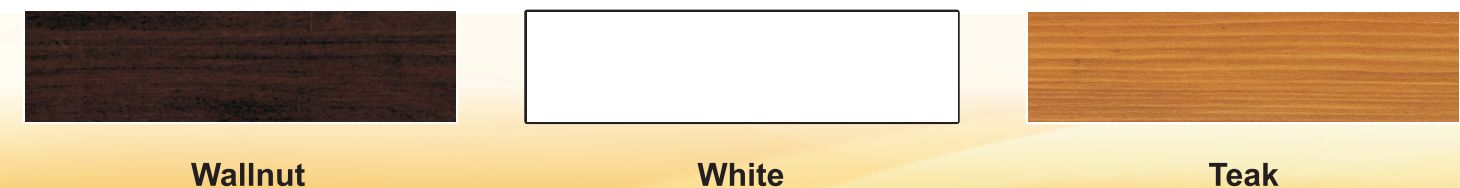

SANDING SEALER - GOOD SHINE'S Sanding Sealer is used as an added layer of protection on the wood and to create a smooth finish by filling wood pores. Using sanding sealer on wood products creates a strong & long lasting smother finish. This semi gloss quick drying sealer renders very outstanding filling properties shortly after application and is suited for all type of wooden furniture. Good Shine Nitro Sealer is a lead free item.

Good Shine Nitro Paint (Dico)

Good Shine Wood Filler Shades

NC PUTTY : We are providing Good Shine's Nitro-cellulose putty which offers very fine and soft sanding properties soon after application. Good Shine's NC Putty is easy to apply with quick drying feature and gives excellent finish.

T. T. CLEAR : GOOD SHINE'S T.T. Clear is a Nitro Cellulose based fast drying transparent lacquer. It is a suitable for interior Wooden furniture. T.T. Clear Wood Finish is used to get gloss or matt finish. Application of Good Shine sanding sealer gives desirable results when applied prior to T.T. Clear Good Shine Nitro Glossy/Matt Lacquer finish is a lead free products.

WOOD STAIN : GOOD SHINE'S Wood Stainer is a Self drying stainer which is available in multiple shades such as : Walnut, Rose Wood, Teak Wenge, Black Oak yellow and Red brown. With the help of Good Shine's Wood Stainer one can avail the desired shades. As all shades are clear, the Grains & the characteristics of the wood remain unchanged keeping wood neutrality intact. It is a fast drying solvent base with transparent dyes and free of lead product thus becoming eco friendly & internationally accepted product.

MELAMINE : GOOD SHINE'S Melamine is an acid curing 2 -pack transparent Glossy / Matt / Semi Matt Sealer clear for transparent coating. It is mainly used for long lasting protection and also gives a highly natural looks to the furniture. Melamine, with non yellowing property, is resistance to oil & food beverage stains thus maintaining natural beauty of wood for years

BODY FILLER : GOOD SHINE'S Body Filler is used to fill the dents of the vehicle surface. The Product has unique Microsphere Technology that helps feel dent faster & repair hail damage, dings or small holes in the Body of Vehicle.

ENAMEL PAINTS : GOOD SHINE'S Enamel paints is solvent based Enamel System will provide greater resistance to wear and tear along with superior flow and leveling. It is available in all Shades.

PU. CLEAR : GOOD SHINE'S PU. Clear/PU Matt/PU Sealer is a high performance transparent two component polyurethane wood finish, which is weather resistant and quick drying. It gives excellent result when applied on interior and exterior of natural wood & wood veneer. The natural beauty of wood can be preserved for years as good shine's PU. Clear has non yellowing property also. It should be stored at ambient conditions in well ventilated location and away from source of ignitions and fire. It should not be drained and disposed in land filling.

THINNER : GOOD SHINE'S NC Thinner, UT-39 T-124 and PU Thinner all are heavy rich solvent based reducing agent that provide required viscosity to paint, maintaining a smooth flow of fluid and protecting the paint from decaying.

TOUCH SHINE : GOOD SHINE'S PU is a 1k Economy Polyurethane coating which enhances the Natural look of the wood for interior coating. It is a quick simple and easy to app and does not need a separate top coat. It also provides better protection, hardness to the interior wood and is self sealing. It could be applied by spray or Cloth pad or by brush to ensure maximum penetration on wood. It also works as a wood preservative.

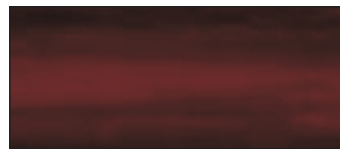

NC PAINTS : GOOD SHINE'S Nitrocellulose paint is a combination of rich solvents which helps in thinning the paints to desired viscosity. It also accelerates the flow and smoothen the film. It protects the paints from getting decayed. It has excellent compatibility with Nitrocellulose Lacquer and all other N. C. base items. Good Shine's NC Paints keeps the applied products smooth. It is available in the shades of white, maroon, P.O. Red, golden yellow, oxford blue, Phiroza, Medium Brown, Dark Brown, Aluminum, Red Oxide and Black.
